SmartSeries Plus gives you immediate access to BACnet MS/TP for Building Management System connection	Best in Class BMS integration and programming
Easy to program thermostat	General Contractor and Facility Manager save time, money, and energy

PRO+ Series Bundle

Why SmartSeries[®] Plus?^{*}

UNIT HEATERS

Constant Monitoring

When an issue arises it is noticed and repaired sooner which **reduces downtime**

Average repair takes 4 days

With Pro+ this can be reduced to 2-3 days

Single Control Point

Parameters easily changed on multiple units all at once, which **ensures proper operation and reduces labor time** for facility manager.

1 hour of labor
1x's week @ \$30/hr. =

\$1,560 a year in savings

Run When Needed

Operator can reduce setpoint or set unit to idle when user comfort is not priority which **reduces energy consumption**

Avg kW/hr = \$.0104

3kW unit running for 24 hours a day = \$7.49

3kW unit running at max for 8 hours, then 2/3 for 16 hours = \$5.82

Savings = \$610 a year

Customer Saves Money!

Additional Savings:

Easier navigation using touchscreen **saves time programming**

Local programmable schedule **saves money by running only when needed and schedule only needs to be set once**

Vacation or Setback mode drops temperature setpoint **reduces overall spend compared to unit running at full output**

Temporary override keeps heater running longer **provides better user experience**

Keypad can lock out unintended changes or tampering **peace of mind unit is running how it should be**

Building Management Systems are the way of the future!

^{*} Savings and calculations were estimates based on local rates. Savings can and will differ by region, operation parameters, and product usage.
