

INCREASE YOUR SALES WITH SUPPLEMENTAL HEAT

Today's commercial buildings often have drafts and cold spots that require supplemental heating. Qmark convectors, ceiling and cabinet heaters can fill that need for your customers.

CONVECTORS

An invisible shield for any space

- Helps maintain comfort inside and protects against drafts
- Removes condensation from windows
- Full line of trim and finishing accessories
- Wide range of sizes, colors and configurations
- Recessed installation and custom enclosures available
- SHA Series shown

CABINET HEATERS

Let people in. Keep the cold out

- Rapid, heavy-duty heat for large spaces
- Easy integration with Building Management Systems (BMS)
- Stock cabinets **ship in two days**
- Custom orders ship in **just two weeks**
- Custom color and finish options
- Hinged front panel for easy maintenance access
- CU900 Series shown

CEILING HEATERS

Heating from above that's hidden from below

- Recessed or flush installation for a seamless look
- Wide, straight-down or angled airflow
- Converts from single- to three-phase for flexible installation
- Two-hand installation with the **easy-to-use thumb pin**
- Easy integration with Building Management Systems (BMS)
- CDF Series shown
