FFCH SERIES ARCHITECT'S AND ENGINEER'S SPECIFICATIONS*

The heating equipment shall include an electric, ceiling-mounted type CDF Series 500 fan-forced air heater suitable for large area heating as manufactured by Berko®, a Marley Engineered Products® Brand, Bennettsville, SC. Heater shall be cULus listed.

The heater shall be designed for surface, recess, or T-Bar mounting. For surface mounting, a Berko FFCH-SE surface enclosure shall be used. For T-Bar mounting, a Berko FFCH-RE recess enclosure shall be used. For recessed mounting in a permanent ceiling, a Berko FFCH-RE recess enclosure and FFCH-TK trim kit shall be used.

The heaters shall be factory wired for single-phase operation and field convertible to three-phase operation by removing one jumper wire.

The heaters should be factory wired for full wattage and field convertible to 75% or 50% wattage by the removal of one or two wires respectively.

HEATER SECTION: The heater section shall consist of a 20 gauge steel chassis on which are mounted the heating elements, fan motor and blade, fan control, thermal cutout, and 3-pole contactor. Heater section shall be completely prewired.

HEATER ELEMENTS: The heating elements shall be warranted for five years and shall be of non-glowing design consisting of 80/20 NiCh resistance wire, enclosed in a steel sheath, to which steel plate fins are brazed. The elements shall cover the entire air intake area to ensure uniform heating of all discharged air.

MOTOR AND CONTROLS: The fan motor shall be impedance-protected, permanently lubricated, and with totally-enclosed rotor. Fan control shall be bi-metallic, snap-action type and shall activate the fan immediately and continue to operate the fan after the thermostat is satisfied and until all heated air has been discharged. Thermal cutout shall be bi-metallic snap-action type designed to automatically shut off the heater in the event of overheating and reactivate the heater when temperature returns to normal.

OPERATIONAL CONTROLS: Thermostat, disconnect switch, and all interlock relays shall be installed within the heater enclosure.

RECESS ENCLOSURE: The back box shall be designed for duty as a recessed rough-in box in masonry, T-Bar, or frame ceiling construction. The back box shall be 20 gauge galvanized steel and shall contain knockouts through which field wiring leads are brought. Enclosures to recess into a maximum 7 inches of ceiling space.

The louvered recess faceplate shall be of 20 gauge cold rolled steel, phosphatized, then electrostatically painted White by a baked enamel process.

SURFACE ENCLOSURE: The surface mounting plate shall be designed for duty as a rough-in box on masonry, T-Bar, or frame ceiling construction. The surface mounting plate shall be 20 gauge galvanized steel and shall contain knockouts through which field wiring leads are brought. Enclosure to extend a maximum of 6 inches into the heated space.

The louvered surface wrapper shall be contoured aluminum extrusion and 20 gauge sheet metal combination with rounded corners. The surface wrapper shall be electrostatically painted Navajo White or White by a baked enamel process.

*Berko reserves the right to change specifications without prior notice

FFCHT	685360026459	Integral thermostat SPST — Range 45 to 95°F	1 lbs
FFCH24R	685360026497	Relay (Time Delay 45–60 sec. to close when energized) requires 24V supply from remote source	1 lbs
FFCHR12	685360026428	Relay (Time Delay 45–60 sec. to close when energized) requires 120V supply from remote source	1 lbs
FFCHDS_R	685360174976	Recessed Mount Power Disconnect Switch (3-Pole) 30 amps, 600 volts, 3Ø, 60 Hz	1 lbs
FFCHDS_S	685360174969	Surface Mount Power Disconnect Switch (3-Pole) 30 amps, 600 volts, 3Ø, 60 Hz	1 lbs
FFCHTK	685360026466	Trim Ring for mounting on permanent ceiling (cannot be factory installed)	1 lbs
FFCHTR4	685360026473	208/240V Primary Transformer/24V sec. and 24V holding coil control relay	1 lbs
FFCHTR7	685360026480	277V Primary Transformer/24V sec. and 24V holding coil control relay	1 lbs
FFCHRFK	685360171555	Mounting Bracket Retrofit Kit	2.5 lbs

NOTE: Factory-wired for highest wattage, field-convertible to lower wattages. Factory-wired 1-PH, field convertible to 3-PH dual-phase units, maximum amp draw is listed. Amperage shown is for single phase. For factory installation of above controls, additional charges apply.

Electrical Wiring, Standard Factory Wired Diagram:

CAUTION: Field wiring must be #10 AWG. min. rated 90°C. min.

Dimensions and Clearances:

No matter the industry or application, Marley Engineered Products has a robust portfolio of innovative, reliable, high-performance comfort heating and ventilation solutions for all your heating needs.
