MCSSAR MECHANICAL ARTISAN™
ARCHITECTURAL HEAVY-DUTY WALL HEATER

Contemporary, yet functional design

Save time and money on installation

Two-piece construction; includes back box, element/fan deck/grille

Built-in, tamper-resistant thermostat

Recess or surface mounting to wall

Excellent for zone heating - heat where you do need it, not where you don’t

Steel-sheathed heating element combines the durability of a steel tubular heater with the excellent heat transfer characteristics of aluminum fins

Rugged heavy-duty aluminum die-cast grille

Power on/off switch for added safety during maintenance

NOTE: Standard grille color is White. Add AL (Aluminum) suffix to catalog number (ex. MCSSAR4808AL). Allow two weeks delivery for models with special color.

Mounting Limitations: For wall mounting, do not install back box closer than 8 in. from floor or adjacent wall. Do not install heater behind towel rack, behind door, in floor, in closet, in ceiling or where air flow may be obstructed. All controls are concealed behind the front cover making them essentially tamper proof. They will accommodate pneumatic/electric or low-voltage controls commonly used with computerized energy management systems.
