# ASL3 & ASL5 SERIES

## ARCHITECT'S AND ENGINEER'S SPECIFICATIONS\*

Furnish and install, where indicated on plans, ASL Series Series convector type heaters, suitable for continuous operation, as manufactured by Berko®, A Division of Marley Engineered Products®, Bennettsville, SC.

**ENCLOSURE:** Shall be 12-gauge (.080" min.) aluminum extrusion (ASL3) or 10-gauge (.095" min.) aluminum extrusion (ASL5). The one-piece top and bottom shall join to the one-piece top and front utilizing Berko's Snap-Lock design. Both inlet and outlet air grilles shall be punched pencil-proof slots negating the need for mesh under the grille.

**SIZE:** Heaters shall be low profile (3 5/8" x 6" or 5 3/8" x 7") and available in standard lengths from 28 inches through 12 feet. Additionally, custom length cabinets available with single or multiple heat decks shall be furnished as specified.

**HEATING LENGTHS AND VOLTAGES:** Heater lengths, voltages and wattage capacities shall be as indicated on the plans.

**FINISH:** The top and front shall be finished with a baked enamel paint or anodized. Finished backs are available upon request.

**HEATING ELEMENTS:** The nickel-chromium heating element wire shall be encased in a steel sheath for maximum, trouble-free element life. Aluminum fins shall be pressure bonded to the steel sheath. Elements shall be centered, anchored and shall float freely at each end through high-temperature Noryl bushings. The ASL5 shall utilize Berko's "Stair-Step" element arrangement.

**CONTROL SECTIONS:** Control sections, finished to match heaters, shall be furnished as an optional accessory for field installation of controls, or shall be used to house factory-installed controls as specified.

**OPTION BUILT-IN CONTROLS:** Thermostats, power relay, low-voltage control relays, and power on/off switches, singly or in combination, may be specified for factory installation in heaters. Thermostats and power on/off switches are accessible through the grille.

**PEDESTALS:** The heater shall be convertible for use as a self-standing unit with pedestal conversion kit. Pedestals shall be painted steel or anodized aluminum. Pedestals can either be mounted on or embedded in the floor surface, and wiring or conduit brought through the pedestal during installation.

*\*Berko reserves the right to change specifications without prior notice.*

### Dimensions and Clearances:

| Cat. No. | Dimensions |        |         |
|----------|------------|--------|---------|
|          | H          | W      | L       |
| ASL3     | 6"         | 3 5/8" | 28"-12' |
| ASL5     | 7"         | 5 5/8" | 28"-12' |

| Minimum Mounting Height Above Floor           |        |
|---|--------|
| ASL3 & ASL5 Front Inlet                       | 0"     |
| ASL3 & ASL5 Bottom Inlet (100W/Ft.-250W/Ftr.) | 1-3/4" |
| ASL5 Bottom Inlet (375W/Ft.-750W/Ft.)         | 3"     |

### Knockouts:

### Pedestal Placement:

| Cat. No. | Standard Pedestal Placement |        |        |
|----------|-----------------------------|--------|--------|
|          | A                           | B      | L      |
| ASL3     | 2"                          | 2 1/4" | 28-12" |
| ASL5     | 2 13/16"                    | 2 1/4" | 28-12" |

NOTE: On units longer than 12', three pedestals are required. Consult factory for placement.

Optional Built-In Controls:

| SUFFIX* | OPTIONAL BUILT-IN CONTROL | RATINGS & DESCRIPTION  |
|---------|---------------------------|--|
| T       | Single-Pole Thermostat    | Rated 25 amps @ 120-240 VAC and 22 amps @ 277 VAC. Pilot duty rating of 125 VA (all voltages). 60-120°F temperature range; adjustable through outlet grille-tamper-resistant. (See Note B) Not available on three-phase heaters.       |
| 2T      | Double-Pole Thermostat    | Rated 25 amps @ 120-240 VAC and 22 amps @ 277 VAC. Pilot duty rating of 125 VA (all voltages). 60-120°F temperature range; adjustable through outlet grille-tamper-resistant. (See Note B for amperage restrictions.)                  |
| DS      | Power On/Off Switch       | Double-pole, rated 20 amp @ 120-277 VAC. (See Note A) For three-phase heaters and single-phase heaters over 20 amps specify two.   |
| TR      | Transformer Relay         | Single-pole, low voltage relay with built-in transformer (24 VAC control), rated 22 amps @ 120-240 VAC and 22 amps @ 277 VAC. (See note E) 17 amps @ 347V. Not available on three-phase heaters.                                       |
| PR      | Power Relay               | Single-pole thermal time delay relay, rated 25 amps @ 120-600 VAC. (See Notes E & F). Specify control voltage.   |
| 2ST     | 2-Stage Thermostat        | Rated 24 amps @ 120-240 VAC and 22 amps @ 277 VAC. Pilot duty rating of 125 VA (all voltages). 60-120°F temperature range, adjustable through outlet grille-tamper-resistant. Available on 2- or 3-element, single-phase heaters only. |
| PDT     | Single-Pole Thermostat    | Same as -T except Pilot Duty. (See Note C)   |
| 2TPD    | Double-Pole Thermostat    | Same as -2T except Pilot Duty. (See Note C & D)  |
| M       | Outlet Mesh               | Price per foot   |

NOTE: \*Addition To Basic Catalog No. (See Note D)  
**A.** For single-phase loads over 20A and all three-phase loads, specify (2) power on/off switches. **B.** This control option is not available on single-phase heaters over 25 amps (22 amps on 277 VAC). In combination with the power on/off switch option use the 2ST thermostat option on heaters over 20 amps. **C.** A second transformer relay can be sequenced off the first transformer relay in the same heater. Up to 30 power relays in different heaters can be controlled by (1) single-stage pilot duty thermostat. **D.** Up to 30 power relays in different heater can be controlled by each stage of a two-stage pilot duty thermostat. **E.** Two relays are required on single-phase heaters over 20 amps with a power on/off switch, over 25 amps without a power on/off and on all three-phase heaters. Two relays are available for two-stage on two- or three-element heaters only. **F.** Three power relays are available for three-stage on three-element heaters only.

Control Combinations:

|      |                             | No Thermostat or Power ON/OFF Switch | Thermostats |                |                |                                |   | Power ON/OFF (-DS) <sup>4</sup> | Thermostats & Power ON/OFF Switches |                |                |                |                    |

|      | Transformer Relay (-TR)     | x                                    | x           | x              | x              | x                              |   | x                               | x                                   | x              | x              | x              |                    |
|      | 2 Transformer Relays (-2TR) | x                                    |             | x <sup>3</sup> | x <sup>3</sup> | x <sup>3</sup>                 | x <sup>3</sup>                          | x <sup>3</sup>                  |                                     | x <sup>3</sup> | x <sup>3</sup> | x <sup>3</sup> |                    |

NOTE: **1.** Normal mounting configuration is a thermostat and Power ON/OFF in left junction box; power relay, transformer relay, and pneumatic/electric switch in right junction box. **2.** When used with power relays or transformer relays, pilot duty thermostats will be wired into the coil circuit of the power relay or the 24V side of the transformer relay. The line voltage thermostats will be wired into the power circuit of the heater. **3.** When using two transformer relays with any additional controls (built-in thermostat or Power ON/OFF), please consult factory. **4.** For three-phase units, specify two Power ON/OFF.
