WHT500 SERIES ARCHITECT'S AND ENGINEER'S SPECIFICATIONS*

FURNISH AND INSTALL: Furnish and install, where indicated on plans, electric heater suitable for well house freeze protection as manufactured by QMark®, A Marley Engineered Products® Brand, Bennettsville, SC. Heaters shall be cETLus Listed.

ENCLOSURE: The heater shall be fabricated of 24-gauge galvanized steel, completely welded, then coated with a corrosive resistant neutral Z polyester powder paint coating.

HEATING ELEMENT: The heating element shall be of non-glowing design consisting of special resistance wire enclosed in a steel sheath to which aluminum fins are mechanically crimped.

CONTROL BOX: The heater housing shall contain an enclosed tamper proof control box to isolate all live electrical parts from the remainder of the heater. An integral thermostat with a temperature range of 40° F to 70° F shall be completely contained in the control box.

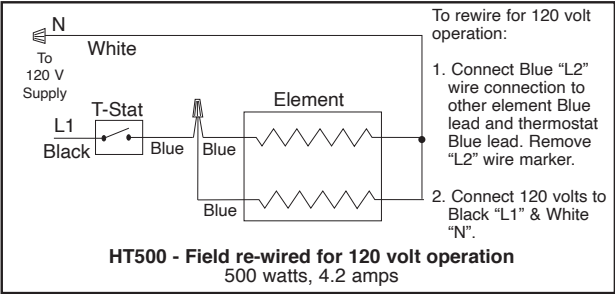

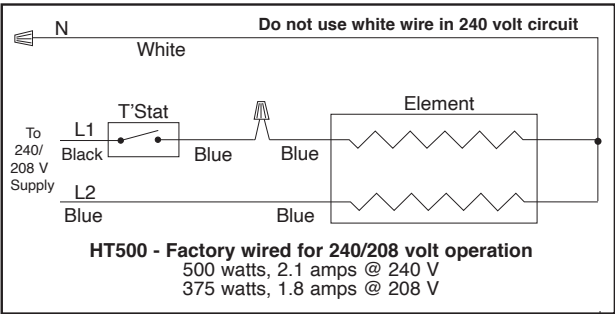

GENERAL: The heater shall be triple rated to operate at 120, 208 or 240 VAC. Shipped wired for 240/208v, field conversion to 120v is quick and easy.

*QMark reserves the right to change specifications without prior notice.
 **Limitations: Do not install in areas where water may enter heater unit. Do not locate where air flow may be obstructed.
